9/19/78

George,

I must object to remarks from the chair regarding the "media" and its alleged role in a "disturbance" that occurred at microphone #3 during this morning's session of the convention.

The disagreement that took place between delegates and sergeants-at-arms at that microphone began when I, and the members of my crew, were across the hall — in the press section. We proceeded to attempt to cover the event that was well underway by the time we arrived at the scene.

The "press" neither "contributed to" nor "incited" the incident. Those are the [illegible] any other implications or conclusions is both untrue and unfair.

Respectfully,

Joe Dramin
